Lesson 1 Introduction & Scoring Criteria

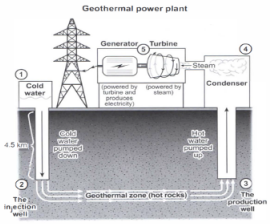

1. Introduction

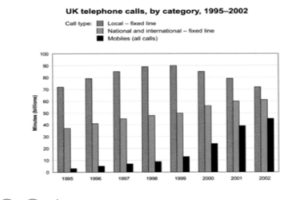

1.1 About IELTS Writing

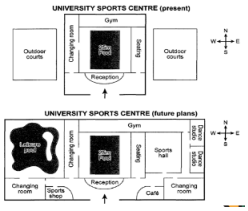

Causes of land degradation by region

Region	% land degraded by...			
	deforestation	over-cultivation	over-grazing	Total land degraded
North America	0.2	3.3	1.5	5%
Europe	9.8	7.7	5.5	23%
Oceania*	1.7	0	11.3	13%

* A large group of islands in the South Pacific including Australia and New Zealand

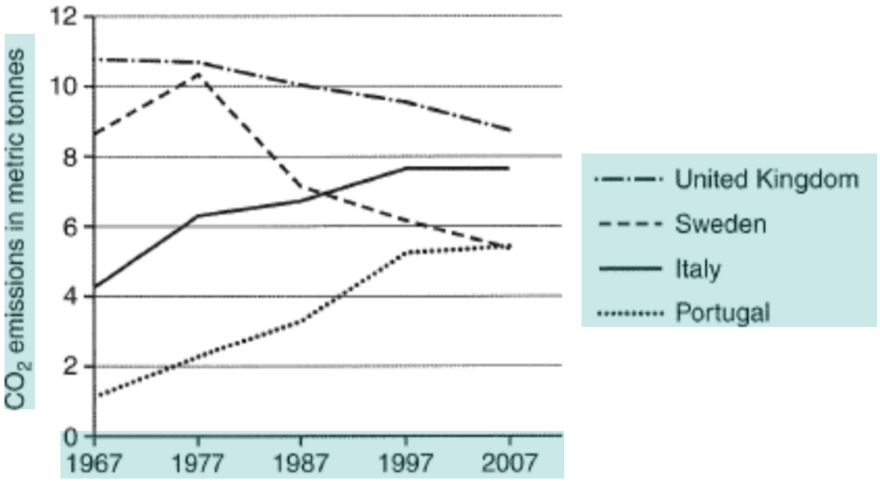

The graph below shows average carbon dioxide (CO_2) emissions per person in the United Kingdom, Sweden, Italy and Portugal between 1967 and 2007.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Average carbon dioxide (CO_2) emissions per person, 1967–2007

1.2 Scoring Criteria

➢ Gap Filling exercise

	Band 5	Band 6	Band 7
TASK ACHIEVEMENT	• generally addresses the task; the format may be inappropriate in places • recounts detail mechanically with **no clear overview**; there may be no data to support the description • presents, but inadequately covers, key features / bullet points; there may be a tendency to focus on details		• covers the requirements of the task • presents a **clear overview** of main trends, differences or stages • clearly presents and highlights key features / bullet points but could be more fully extended

	Band 5	Band 6	Band 7
COHERENCE AND COHESION		• arranges information and ideas coherently and there is a clear overall progression • uses cohesive devices effectively, but cohesion within and/or between sentences may be faulty or mechanical • may not always use referencing clearly or appropriately;	

	Band 5	Band 6	Band 7
LEXICAL RESOURCE		• uses an adequate range of vocabulary for the task • attempts to use less common vocabulary but with some inaccuracy • makes some errors in spelling and/or word formation, but they do not impede communication	

	Band 5	Band 6	Band 7
GRAMMATICAL RANGE AND ACCURACY	• uses only a limited range of structures • attempts complex sentences but these tend to be less accurate than simple sentences • may make frequent grammatical errors and punctuation may be faulty; errors can cause some difficulty for the reader		• uses a variety of complex structures • produces frequent error-free sentences • has good control of grammar and punctuation but may make a few errors

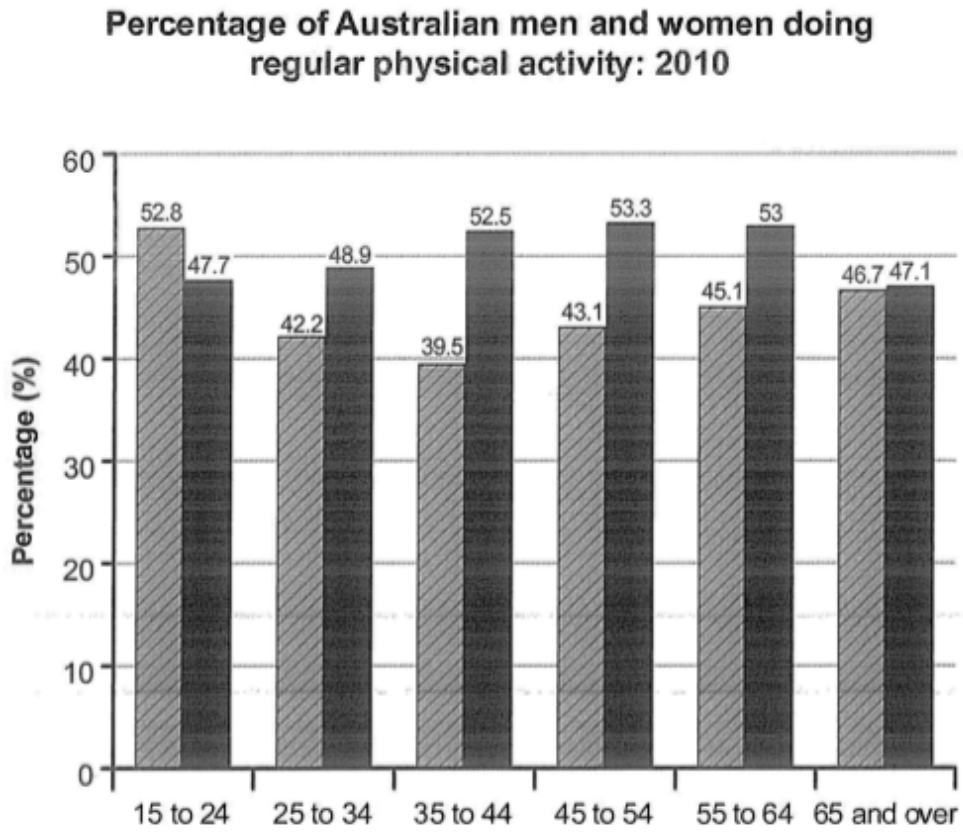

Lesson 2 Train of thoughts & Opening

2.3 Lexical Resource & Grammatical Range and Accuracy

(Find the errors in the following sentenced and correct them)

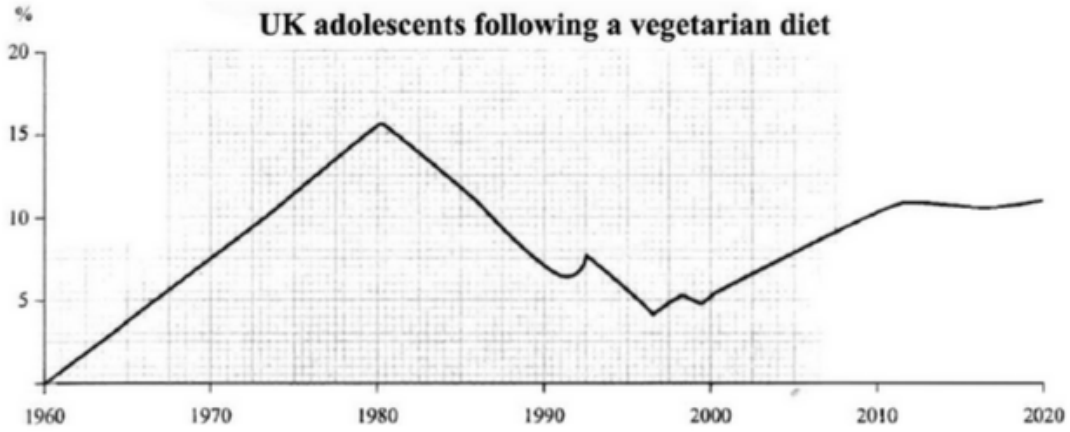

1. From 1978, the rented households was rised by about 40%.
2. At 2001 to 2011, a decline in the owned house can be found from 50% to 30%.
3. Despite there are some fluctuation in the expected percentages the proportion of older people will probably continue to increase in the next two decades in the three countries.
4. This rise is particular noticeable between 1999 and 2002, during which time the use of mobile phones tripled.
5. The consumption of chicken, on the other hand, showed an upward trend, overtook that of lamb and that of beef in 1989.
6. The use of CD player changed the most dramatically, increased from 20% in 1980 to 78% in 2000.
7. After rising slowly to 60 grams per person per week in 1980, there was a considerable decreasing to only 22 grams in 1990.
8. The figure of rented accommodation levelled off between 1939 and 1953, which was followed by decreased to 20% in 1960.

2.4 Scoring Criteria Conclusion

GRA			

2.5 Opening Paragraph

The graph shows the percentage of UK adolescents following a vegetarian diet.
Summarise the information by selecting and reporting the main features, and make comparisons where relevant.
Write at least 150 words.

➢ **改写题目：**

- **图形种类具体化**
- **below 删除**
- **show 适当替换**
- **图表内容同义替换：近义词，词性转换/句型转换**
- **时间地点酌情替换表达**

➢ **Overview**

- **Opening Paragraph Drilling**

Exercise 1:

- The graph below shows the consumption of fish and different kinds of meat in one European country between 1979 and 2004. Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Exercise 2:

- The chart below shows the results of a survey about people's coffee and tea buying and drinking habits in five Australian cities. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Review Checklists:

- ✓ I can identify different types of Tasks 1 in IELTS Writing
- ✓ I understand scoring criteria and how to get my target band score
- ✓ I know how to summarize and make comparison (train of thoughts)
- ✓ I know how to write an opening paragraph

Lesson 3 Description of Trends

3.1 Elements for Dynamic Graphs

➢ Vocabulary

Trends 趋势							程度 degree/speed （adv./adj.）		
							*弱/慢	中	*强/快
Verb 动词	rise Increase grow climb *soar *rocket	peak *plateau	decrease fall drop decline *plummet *slump	bottom	fluctuate vary	stabilize	*Slightly *Marginally *Minimally Gradually Slowly Steadily Stably Constantly	Moderately Modestly	*Significantly *Dramatically *Considerably *Sharply *Substantially Rapidly Steeply Quickly
Nouns 名词	a rise an increase a growth a surge	a peak a summit	a decrease a decline a fall a drop a plummet a slump	a bottom a nadir a trough	a fluctuation a variation	stability	*Slight *Marginal *Minimal Gradual Slow Steady Stable Constant	Moderate Modest	*Significant *Dramatic *Considerable *Sharp *Substantial Rapid Steep Quick
Phrase 短语	1.go up 2.show..an upward trend	1.reach a peak of 2.reach the highest point	1. go down 2.show..a downward trend	1.reach..a bottom of 2.reach..the lowest point	1.show some fluctuation/ variation	1.level off 2.remain stable 3.maintain this level	大约 About Around Approximately	分别地 Respectively	相比较的地 Relatively Comparatively

➢ A mix of simple and complex sentenced

■ 简单句型

- 量做主语：

- 时间做主语：

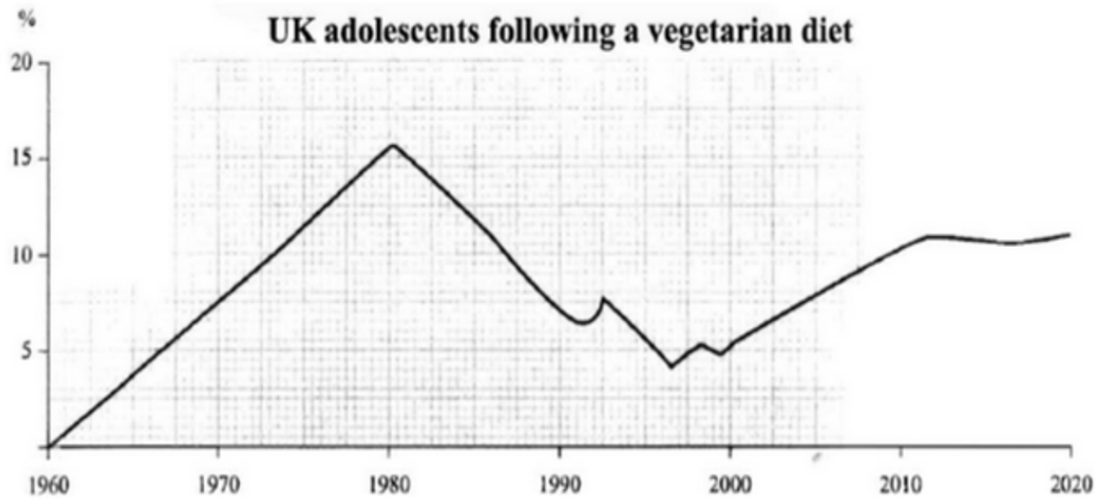

- 被动语态：

- There be 句型：

■ 并列句型

■ 复杂句型

1. 时间状语从句---先增长后下降…
The use of mobile increased by 1 million *before decreasing* slightly to 2 million.
After increasing by 1 million, the number of Mobiles decreased slightly to 2 million.
2. “比较”状语从句---前五年上升但是后面几年平稳
The consumption of beef increased in the first five years, *whereas/while* it leveled off over the following six years.
3. 总体....,尽管... (despite是介词，后面不能加完整的句子)
总体上升，尽管有波动：
Despite some initial fluctuation, there was an overall increase from 1995.
总体下降，尽管有一段上升：
Apart from a brief rise from 1980 to 1985, the consumption gradually declined over the 25 years.
4. 对比+趋势描述
The consumption of beef was *the highest* over the ten years, *increasing* from 200 tons in 1980 to 400 tons in 2000.
5. 非限定性定语从句-----补充描述...还有…数据特征
The increase was particularly noticeable between 1995 and 2002, *when* the use of mobile tripled.

Samples for Dynamic Graphs

➢ Sample for Task in Page 10

The line graph demonstrates average carbon dioxide emission per person in four different countries from 1967 to 2007. Overall, from the graph it is apparent that the average CO2 emission in UK and Sweden decreased, while the reverse was the case in Italy and Portugal.

The pollution in UK was the most serious during the whole period, although the average carbon dioxide emission decreased slightly from approximately11 metric tons to about 9 metric tons. By contrast, despite a surge of average carbon dioxide emission in the first decade in Sweden, the pollution here had been contained in the later three decades, when the figure decreased dramatically from 10 metric tons to only 5 metric tons.

On the other hand, there was significant increase of average carbon dioxide emission in the first three decades and then stability in the last decade in both Portugal and Italy, from 1 metric tons to 5 metric tons and from 4 metric tons to 8 metric tons respectively. However, Portugal was always the least polluted. (170 words)

➢ Sample for Task in Page 11

The line graph compares the weekly consumption of different kinds of meat and fish in one European country from 1979 to 2004. Overall, from the graph it is apparent that chicken became more and more popular, while the reverse was the case in beef and lamb; and the consumption of fish kept stable.

The weekly consumption of chicken changed the most dramatically, increasing from the third popular (only less than 150 grams per person), exceeding that of lamb in 1980 and beef in 1989, to the most popular (more than 250 grams per person). By

contrast, fish was the least chosen during the whole period, when the figure kept steady at 50 approximately 50 grams.

On the other hand, both beef and lamb become less and less popular. Although beef was people's favorite in this country in the first decade, its consumption dropped sharply in the following 15 years to less than half of chicken's consumption, with only 100 grams. The period also witnessed a decrease of lamb's consumption from about 100 grams to only 60 grams. (177 words)

- **Sample for Task in Page 13**

The bar chart compares the time spent by UK residents on different type of telephone calls between 1995 and 2002. Overall, from the chart it is apparent that although fixed line calls (local, national, and international calls) were used more frequently than mobiles, the gap between them had narrowed considerably, especially over the second half of the period.

The local fixed line calls were used the most frequently throughout the whole period, increasing from 72 billion minutes in 1995 to just under 90 billion in 1998. After peaking at 90 billion the following year, these calls had fallen back to the1995 figure by 2002.

National and international fixed line calls, on the other hand, grew steadily from38 billion minutes to 61 billion at the end of the period, although the growth slowed over the last two years. By contrast, there was a surge in the use of mobile from 2 billion to 46 billion minutes, and the increase was particularly noticeable during the second half period, when the use of mobile phones tripled. (173 words)

- **Sample for Task in Page 15**

The three pie charts compare how the annual spending changed in a particular UK school from 1981 to 2001.Overall, from this graph it is apparent that the spending on

insurance, furniture, equipment, and teachers' salaries increased, while the reverse was the case in the other three sectors.

During the whole period, most of the money was spent on teachers' salaries, which occupied almost half of the total expenditure (increasing from 40% to 50% before decreasing to 45%). By contrast, the school spent the least money on insurance in the period, although the percentage it accounted for increased from 2% to 8%. In addition, the two decades witnessed an 8% rise of spending on furniture and equipment.

On the other hand, the proportion of spending on other workers' salaries changed the most dramatically, almost reducing by half in these two decades (from 28% to merely 15%). The figure on resources also fell, but the decline was much slighter from 15% to 9%. (161 words)

- **Sample for Task in Page 17**

The table compares how many people got married and divorced in UK from 1950 to 2000. Overall, it is apparent that there were a growing number of people getting divorced, while the reverse was the case for those getting married.

Despite some initial fluctuation, the number of first marriages dropped from 330 thousand in 1950 to 180 thousand in 2000. Different from first marriages, although the first decade witnessed a drop of remarriages from 78 thousand to 58 thousand, a surge to 126 thousand can be found in the following 4 decades apart from a marginal decline in the last twenty years. Above all, the number of marriages is the sum of that of first marriages and re-marriages, declining from 408 thousand to 306 thousand by the end.

On the other hand, in 1950 only a small number of people got divorced (only 33 thousand) and then the figure soared to 168 thousand in 1990 despite some fluctuation. The last ten years witnessed a very marginal decrease of divorces to 155 million. (173 words)

Lesson 5 Description of Differences

5.1 Elements for Static Graphs

The table below gives information about the underground railway systems in six cities.

City	Date opened	Kilometres of route	Passengers per year (in millions)
London	1863	394	775
Paris	1900	199	1191
Tokyo	1927	155	1927
Washington DC	1976	126	144
Kyoto	1981	11	45
Los Angeles	2001	28	50

- **Comparisons and Contrasts**

5.1.1 最值描写（东京地铁的年载客量是最大的）

- **… is the largest**
- **… is the most…**
- **… does more + adj than the others**
- **… tops the list of sth.**

5.1.2 相同相似表达

- **The number of … in A is similar to that in B.**
- **A does the same/similar … as B does.**
- **The difference between … in A and B is barely noticeable.**

5.1.3 倍数关系表达（伦敦的地铁长度接近巴黎的 2 倍）

- **A is twice/three times as adj. as that of B**

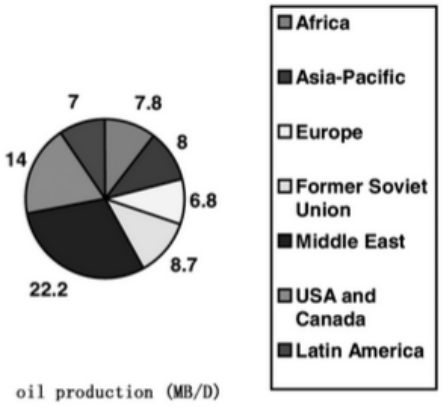

- **B is half/one third that of A**

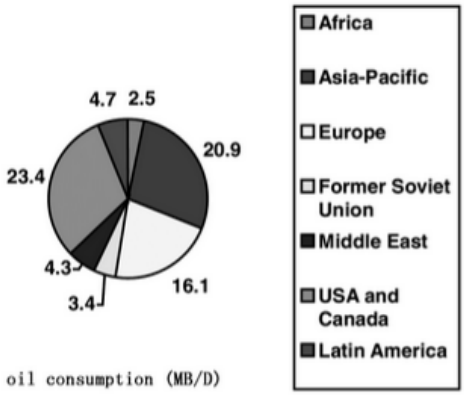

最大	dominate, top the list, do more than the others, 最高级 (be the largest)
第二	followed by, come second, 最高级 (be the second largest)
最小	insignificant, the least popular,
区间	range from … to …; cluster between … and …
倍数	is twice as much as, … half …
相似 & 相同	be the same as; be equal to; be matched by; be similar to
占	constitute; account for; represent; make up

- **Drilling**
- London 的地铁体系是最发达的。这里的地铁开通时间最早（数据），里程最长（数据），Although 年载客量没有 Paris 和 Tokyo 多。
- Paris 和 Tokyo 的地铁体系都是 early 1900s 开通的，Despite 只有 London 地铁里程的一半，年载客量却分别是 London 的 1.5 倍（数据）和 2 倍多（数据）。

5.2 静态图写作例题

The chart shows the amount of oil production and consumption measured in million barrels per day（MB/D）in seven regions in the year 2001. Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Samples for Static Graphs

➢ Sample for Task in Page 23

The table compares the underground railway networks in six different cities in terms of their age, size and how many people use it annually. Overall, from the table it is apparent that the underground railway networks in London, Paris and Tokyo are obviously more developed than in the other three cities.

The system is the most advanced in London, where it was built the earliest in 1863, and the route the longest (394 kilometers), although not as many passengers use it as in Paris and Tokyo. In these two cities where the systems were both opened in early 1900s, despite only half the size of London, they served 1.5 times (1191 millions) and twice (1927 millions) as many passengers as in London per year respectively.

Among the three developing underground railway systems that were opened after 1970s, Washington DC tops the list in terms of both route (126 kilometers) and annual number of passengers (144 million). By contrast, the size of underground system in Los Angles is twice as long as in Kyoto; however, their yearly passengers were similar at around 50 million. (183 words)

➢ Sample for Task in Page 24

The pie charts compare how many millions barrels of oil were produced and consumed in seven regions of the world in 2001. Overall, from the chart it is apparent that the Middle East, Former Soviet Union, Latin America and Africa were oil exporters, while the reverse was the case in the other three regions.

The largest oil exporter is the Middle East, where the amount of oil production topped the list, which was 22.2 MB/D, approximately five times as much as the oil consumption. By contrast, although Former Soviet Union, Latin America and Africa

produced significantly less oil than the Middle East, there were still oil available to export, as they consumed even less, with 3.4 MB/D, 4.7 MB/D and 2.5 MB/D respectively.

On the other hand, despite the second largest oil producer (14 MB/D), import is still needed in America and Canada, where the oil they must consume was the most in the seven regions, with 23.4 MB/D. Asia Pacific and Europe are under similar circumstance. The oil production (8 MB/D and 6.8 MB/D) in these two regions could only cover about one third of their daily needs. (189 words)

- **Sample for Task in Page 26**

The six pie charts compare the proportion of three purposes in water usage in six regions. Overall, it is apparent that water is mainly used to develop industry in economically advanced areas, while in developing ones, it is used more for agriculture.

There is a similar pattern in water usage in North America and Europe, where half of the water is used for industry, with 48% and 53% respectively. By contrast, they both use the least proportion of water for domestic purpose, with approximately one tenth; and agriculture takes middle positions in each region, with more than 30%.

On the other hand, the water usage pattern is slightly different in the developing areas, although agriculture takes priority over the remaining two sectors in water consumption (with 71% in South America and more than 80% in Africa, Central Asia, and Southeast Asia). While the proportion of water usage in South America, Africa and Central Asia is used more in homes, Southeast Asia uses more water for industry (12%) than for domestic purposes (7%). (172 words)

- **Sample for Task in Page 28**

The bar chart compares post-school qualifications in terms of the different levels of further education reached by men and women in Australia in 1999. Overall, from the

chart it is apparent that females outperformed males in undergraduate diploma and bachelor's degree, while the reverse was the case in the rest three levels of post-school qualification.

The biggest gender difference is at the lowest post-school level, where 90% of those who held a skilled vocational diploma were men, compared with only 10% of women. In addition, at the higher levels of education (postgraduate diploma and master's degree), there were twice and 1.5 times as many men who held postgraduate diplomas as their female counterparts respectively.

On the other hand, women topped the list of undergraduate diplomas, with 70% women holding them, doubling the figure of their male counterparts. Besides, although marginally more women held bachelor's degree, the gender difference was barely noticeable, held by almost half in each gender. (160 words)

- **Sample for Task in Page 30**

The table compares the housing affordability in five cities based on their income, taxes, and prices. Overall, it is apparent that renting a house in Hong Kong and Tokyo is challenging, while it seems much easier in the other three cities.

Housing affordability is the lowest in Hong Kong. Although the tax rate is quite low (15%), the lowest hourly wage (3 pounds) and the second highest rent for a 4-bedroom flat (2,400 pounds) here make HK a city with unaffordable housing. The situation in Tokyo is similar where, despite the decent wage, people can't afford a flat easily because of the highest rent, which cost 5,300 pounds a month.

Renting an apartment, on the other hand, is relatively easier in the rest 3 cities. Especially in Geneva, with the highest hourly wage and the third lowest price of only 1300 pounds a month, taxes as 26.6% of wage are not even a big deal. Similarly, with decent income, people also don't have very severe difficulties in Athens and London, where the prices are very low at merely 700 and 1200 pounds respectively. (184 words)

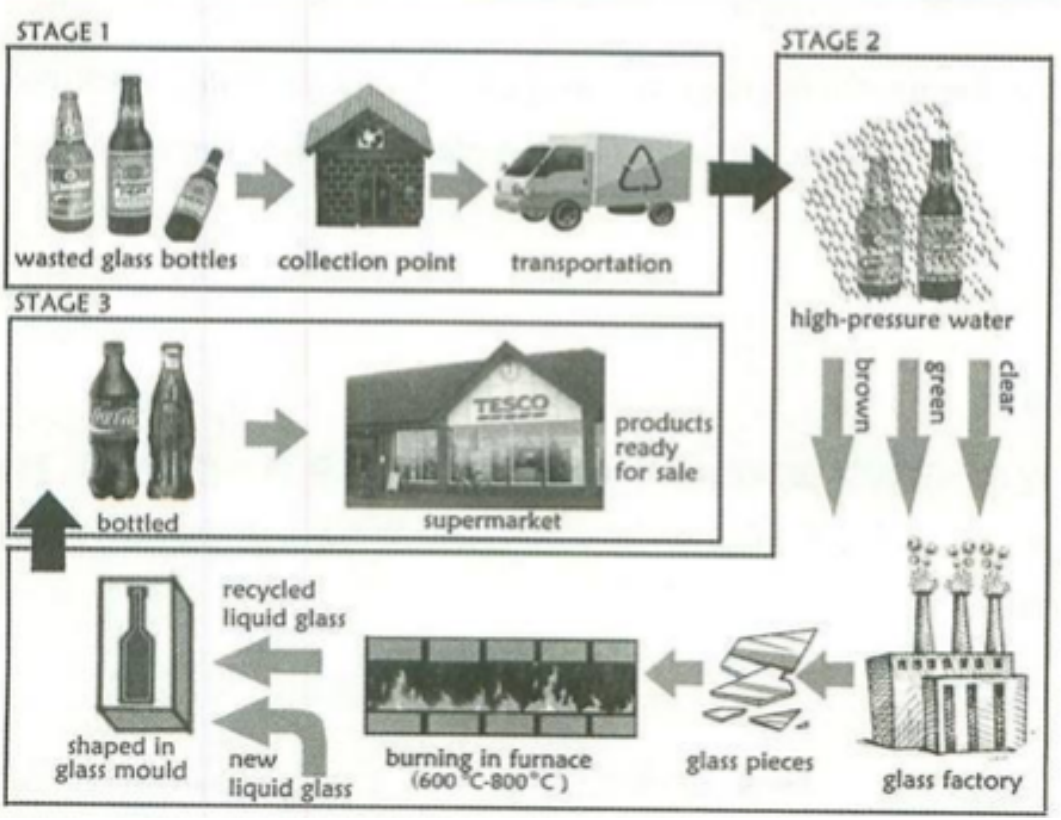

Lesson 7 Description of Flow Chart

7.1 开头段写作

- ✓ 改写题目：The flow chart demonstrates how … is done
- ✓ Overview：Overall, it is apparent that there are X stages of Ving …, beginning with … and culminating in …

➢ 例题

■ The flow chart shows the recycling process of wasted glass bottles. Summarize the information by selecting and reporting the main features, and make comparisons where relevant.

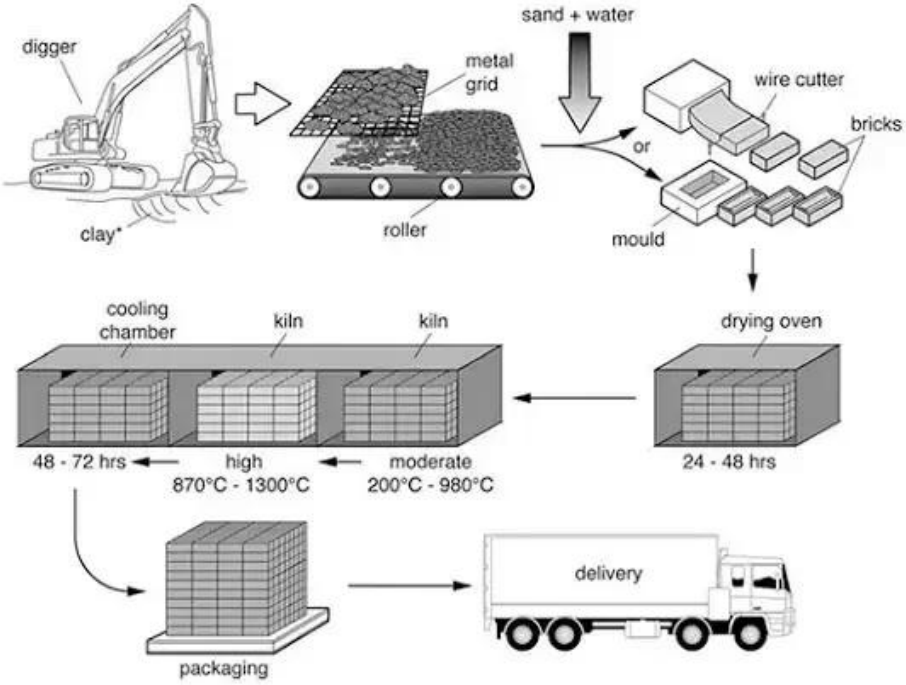

➢ **Sample:**

The flow chart demonstrates how wasted glass bottles are recycled. Overall, it is apparent that there are three main stages of recycling wasted glass jars, beginning with collecting used glass bottles and culminating in products ready for sale.

➢ **Exercise**

The flow chart shows the process of manufacturing bricks for building industry. Summarize the information by selecting and reporting the main features, and make comparisons where relevant.

7.2 主体段写作

✧ 说明文客观 — 被动语态

✧ 顺序的连接 — 连接词

✧ 句子的组合 – 语法结构

✧ **重点：句子的连接组合**

■ **时间连词的使用**

1. 收集玻璃瓶
2. 玻璃瓶由卡车运输到处理中心

■ **Having been 结构**

3. 玻璃瓶被高压水冲洗
4. 根据颜色进行分类

■ **定语从句**

5. 玻璃瓶送至玻璃工厂
6. 玻璃被处理成玻璃碎片

BP 2 练习:

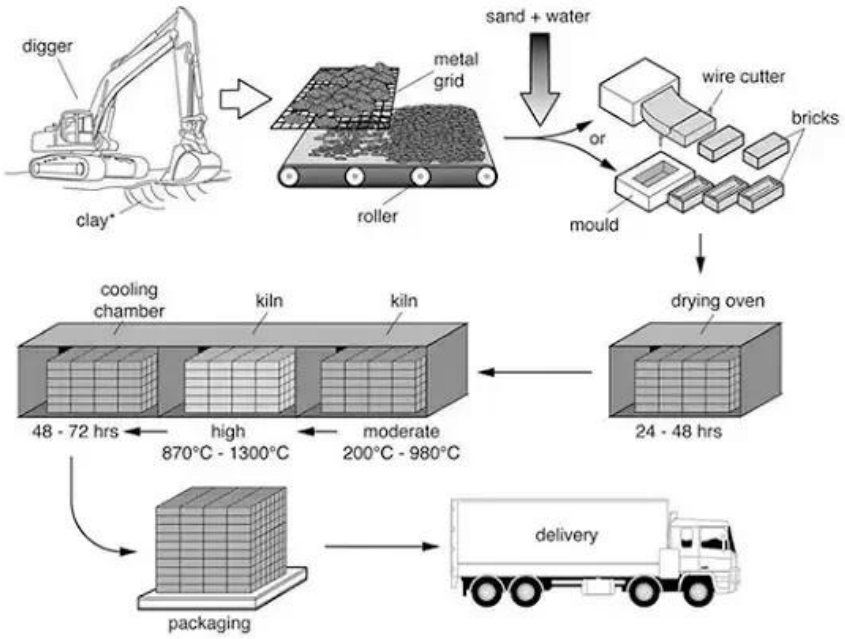

7.3 流程图写作总结

- **开头段**
  - The flow chart demonstrates how … is done.
  - Overall, it is apparent that there are X stages of Ving …, beginning with … and culminating in …
- **BP1: AB 结构 衔接两个步骤**
  - To begin with, … before being …
  - Having been … in the next stage, …
  - The following stage is to … (地点), where …
- **BP 2: ABC 结构 衔接三个步骤**
  - After being…, …, which will then be …, (and …)
  - Once…, …, before …

Review Checklists:

- ✓ I can use a mix of simple and complex sentences correctly
- ✓ I can use passive voice correctly
- ✓ I can use linking words appropriately
- ✓ I know how to improve after reading samples

- **Drilling**

- **Body Paragraph 1**

- **Body Paragraph 2**

Samples for Flow Charts

➢ Sample for Task in Page 35

The flow chart demonstrates how wasted glass bottles are recycled. Overall, it is apparent that there are three main stages of recycling wasted glass jars, beginning with collecting used glass bottles and culminating in products ready for sale.

To begin with, the wasted glass bottles which are the raw materials to manufacture brand new glass jars are collected to the collection point, before being transported to the processing plant. Having been washed by high pressure water in the next stage, the collected wasted glass bottles are classified according to their colors (clear, green, and brown). The following step is to deliver these bottles to the glass factory, where they will be broken up into glass pieces.

After being burnt in a furnace under a temperature ranging from 600 degrees centigrade to 800 degrees centigrade, these glass pieces become recycled liquid glass, which will then be mixed up with new liquid glass, and simultaneously the mixture are shaped in a glass mould. Finally, once the already moulded glass bottles are labelled, they are filled with drinks before they will be sent to supermarkets ready for sale. (185 words)

Checklists for Improvements:

✧

✧

✧

✧

Sample for Task in Page 38

The flow chart demonstrates how bricks are manufactured for building industry. Overall, it is apparent that there are nine stages of producing bricks, beginning with digging up of clay and culminating in delivery.

To begin with, the clay, which is the raw material to produce bricks, is dug up from underground by a digger, before being put on a metal grid in order to remove the bigger pieces of clay. The following stage is to deliver the smaller pieces by a roller, and then mix them with sand and water.

After being cut by wire cutter or shaped by mould, the mixture become half-finished bricks. Having been dried in an oven lasting one to two days in the next step, the bricks are then heated and baked in a kiln under moderate and then high temperature ranging from 200 degrees centigrade to 1300 degrees centigrade. Finally, once these bricks are cooled in a chamber for 48 to 72 hours, they are packed and transported to where they are needed. (170 words)

Lesson 8 Description of Maps & Plans

8.1 开头段写作

- ✓ 改写题目：The two maps demonstrate how … changed/will change + 时间
- ✓ Overview：Overall, it is apparent that…
  - ■ 总体变化：发展/缩减/扩展…
  - ■ 功能概括：居住/交通/休闲…

➢ 例题

The maps below show the changes in a small village from 1995. Summarize the information by selecting and reporting the main features and make comparisons where relevant.

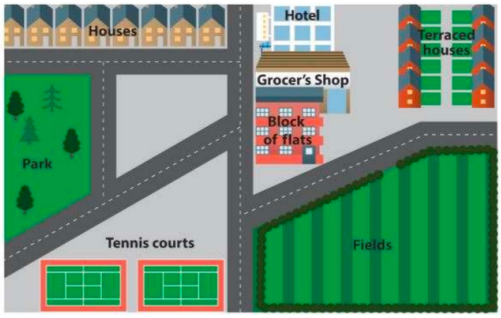

➢ **Sample:**

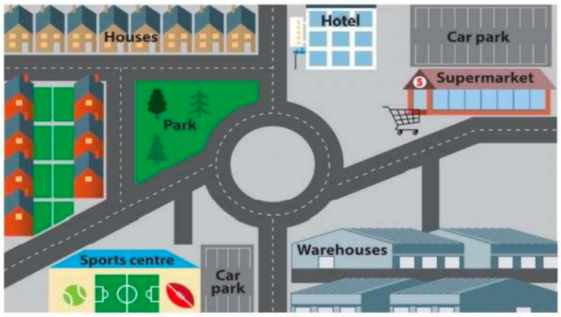

➢ The two maps demonstrate how a small village changed from 1995. Overall, it is apparent that the village has been developed well, with enlarging more residential area.

➢ **Drill for Opening**

The maps below show the change happened in a town called Fosburv. Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Outskirts of Fosbury in 1980

Outskirts of Fosbury in 2015

8.2 主体段写作重点

✧ 方位介词的使用

✧ 静态位置的描述

◆ We can find sth…+ 方位

◆ Sth can be found … + 方位

◆ Sth lies/sits/stands…+ 方位 (主动语态)

◆ Sth is located/situated/sited……+ 方位(被动语态)

✧ 动态变化的描述

消失	◆ disappear ◆ be removed, be demolished, be knocked down
新建	◆ be newly built/constructed/added
替换	◆ A take up the place of B ◆ B is replaced by A
转变	◆ A is changed/turned/converted into B
变大 变小	◆ sth becomes larger//smaller ◆ sth is enlarged/extended//reduced in size
不变	◆ sth remains at/in…/sth remains unchanged ◆ sth is kept unchanged

✧ **重点：静态描述和动态变化的连接**

■ **转折词的使用**

Fishing port 的变化

■ **从句的使用**

Shops 和 fish market 的变化

Hotel 和 café 的变化

BP 2 练习：

➢ **Sample**

In 1995, there was a fishing port located in the far south part of village near the sea, however, it has been demolished at present. In addition, situated alongside the road running from west to east, a block of shops and fish market that were opposite each other in 1995 were removed, and at their original place many restaurants and apartments have been newly established respectively. Moreover, a hotel and café standing at the joint of the two main roads remain where they were, but an addition has been made to the east of hotel, which is a new car park.

Situated on the northwest side of the village in 1995 was basically a residential area, which has been expanded with more houses and a branch road extended westward. Besides, a farmland and a forest park which lay on the northeast village are replaced by a sports field, including golf and tennis, but whose size combined shrinks.

Checklists for Improvements:

✧

✧

✧

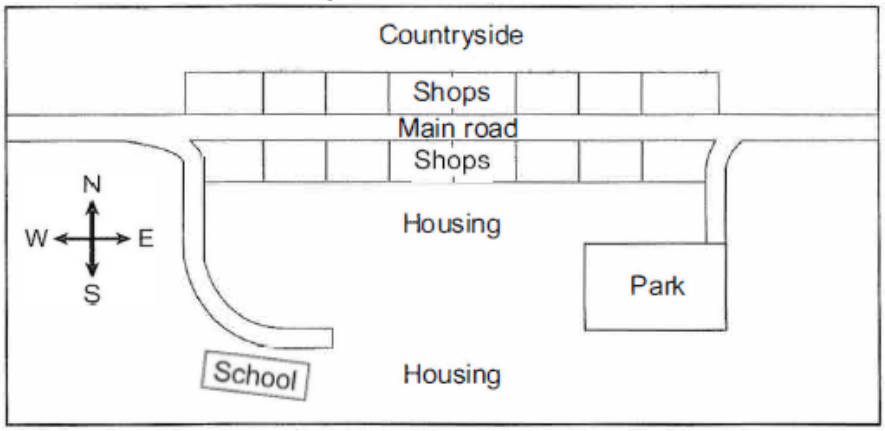

✧

➢ Drill

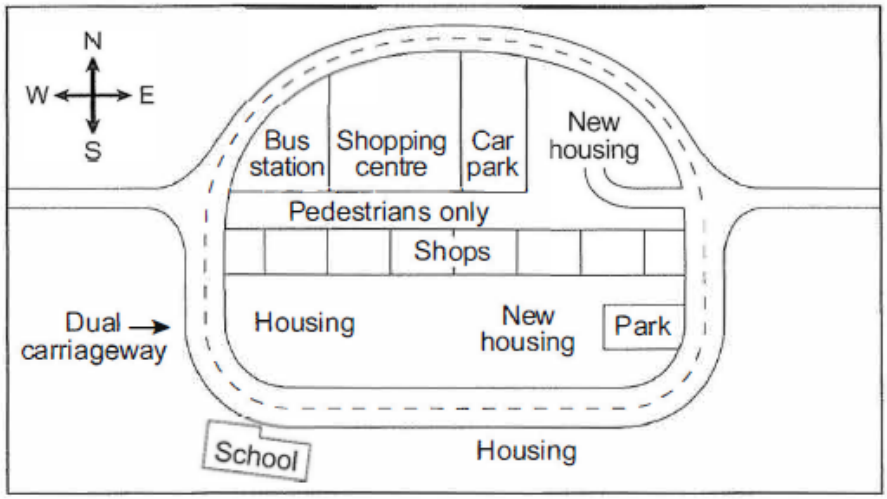

The maps below show the centre of a small town called Islip as it is now, and plans for its development.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Islip town centre now

Islip town centre: planned development

Review Checklists:

- ✓ I can use a mix of simple and complex sentences correctly
- ✓ I can highlight changes based on the two maps
- ✓ I can use linking words appropriately
- ✓ I know how to improve after reading samples

- **Opening Paragraph**

- **Body Paragraph 1**

- **Body Paragraph 2**

Checklists for Improvements:

✧

✧

✧

- **Sample for the Drill**

The two maps illustrate how the Islip town center will change according to the planned development. Overall, it is apparent that great changes and developments will take place here, with more convenient transportation system and upgraded commercial feature.

Currently, the main road separates the town into the southern and northern parts, with two branch roads leading to a school and a park respectively. In the planned development, a pedestrian path will take up the place of the main road, and a circular dual carriageway will be built, providing access to most of the facilities in the town.

Situated on the south of the main road are basically a block of shops and two housing areas, which will keep unchanged, but a new housing area will be added to the west of the park (whose size will shrink). In addition, the shops on the northern side will be upgraded to a shopping center with a bus station to its left, a car park and a new housing area to its right. (170 words)

Lesson 9 Introduction to Task 2 & Scoring Criteria

9.1 Task 2 题型速览

- **Discuss Both**

  Some people think that children should obey rules or do whatever their parents and teachers want them to do. Other people think that children controlled too much cannot deal with problems themselves in adulthood.

  Discuss both views and state your own opinion.

- **Advantages and Disadvantages**

  People today can shop, work and communicate with others via the Internet instead of face-to-face communications.

  Is it a positive or negative development?

- **Agree or Disagree**

  Some people who have been in prison become good citizens later, and it is often argued that these are the best people to talk to teenagers about the dangers of committing a crime.

  To what extent do you agree or disagree?

- **Report**

  Some businesses find that new employees who just finish their education lack basic interpersonal ability such as work with others as a part of team.

  What do you think the causes of this problem?

  What measures should be taken to solve this problem?

- **Why and Advantages & Disadvantages**

  Today many young people change their jobs or careers every few years.

  What do you think are the reasons for this?

  Do you think the advantages outweigh its disadvantages?

✧ **题型归类**

■ _____ + _____

9.2 Scoring Criteria

IELTS TASK 2 Writing band descriptors (public version)

Band	Task Achievement	Coherence and Cohesion	Lexical Resource	Grammatical Range and Accuracy
7	▪ addresses all parts of the task ▪ presents a clear position throughout the response ▪ presents, extends and supports main ideas, but there may be a tendency to overgeneralise and/or supporting ideas may lack focus	▪ logically organises information and ideas; there is clear progression throughout ▪ uses a range of cohesive devices appropriately although there may be some under-/over-use ▪ presents a clear central topic within each paragraph	▪ uses a sufficient range of vocabulary to allow some flexibility and precision ▪ uses less common lexical items with some awareness of style and collocation ▪ may produce occasional errors in word choice, spelling and/or word formation	▪ uses a variety of complex structures ▪ produces frequent error-free sentences ▪ has good control of grammar and punctuation but may make a few errors
6	▪ addresses all parts of the task although some parts may be more fully covered than others ▪ presents a relevant position although the conclusions may become unclear or repetitive ▪ presents relevant main ideas but some may be inadequately developed/unclear	▪ arranges information and ideas coherently and there is a clear overall progression ▪ uses cohesive devices effectively, but cohesion within and/or between sentences may be faulty or mechanical ▪ may not always use referencing clearly or appropriately ▪ uses paragraphing, but not always logically	▪ uses an adequate range of vocabulary for the task ▪ attempts to use less common vocabulary but with some inaccuracy ▪ makes some errors in spelling and/or word formation, but they do not impede communication	▪ uses a mix of simple and complex sentence forms ▪ makes some errors in grammar and punctuation but they rarely reduce communication

9.3 审题

Some people who have been in prison become good citizens later, and it is often argued that these are the best people to talk to teenagers about the dangers of committing a crime.

To what extent do you agree or disagree?

■ 要点总结

a) 审题要点 1 _____

b) 审题要点 2 _____

c) 审题要点 3 _____

■ 审题练习

People today consume more junk food than in the past and damage their physical health. Many people claim that education is an effective way to prevent people from consuming too much junk food. To what extent do you agree or disagree?

I agree with the fact that education promotes the effect of consumers awareness about the harmful effect of consuming junk food. Study shows that in the long run, consuming junk foods such as fries, coke, burgers etc., can directly lead to obesity, high blood cholesterols, and other negative impacts towards our body. Some people which are endomorph body style may have trouble gaining fat on the bottom layer of skin, therefore consuming much high fat junk foods would not directly cause them to gain weight. So, the exterior body would still be visibly unchanged, however the interior of body, such as heart, liver and other organs may suffer from blood clot due to fat congesting in the vessels, slowly corrupting the hosts body without even them knowing. However, with the right amount of education, the host will understand biologically how his body is changing, even if visibly it’s unclear but other third-party factors such as sports and mood may alter, therefore with enough understanding he would understand the consequences of consuming junk food therefore slowly stopping the consumption of high fat foods.

9.4 构思

Brainstorm

Some people believe that some unpaid community service, such as working in a charity, improving the relationship of neighborhood or teaching sports to children, should be a compulsory part of high school programs. To what extent do you agree or disagree?

■ Step 1 从正反两方，尽可能相处更多的分论点

Benefits of doing community service	Harms of being forced to do so
a)	f)
b)	g)
c)	h)
d)	i)
e)	j)
…	…

■ Step 2 从以上分论点中挑选比较容易论证的点

Body 1 could be time-consuming **Body 2** a. learn practical skills (babysitting/childcare etc.) b. become responsible and empathetic

■ Step 3 思考如何对反方论点进行反驳

60%倾向性（无驳斥）	**80% 倾向性（有驳斥）**
Para1. 开头段	**Para1. 开头段**
Para2. 让步段	**Para2. 驳论段**
（承认反方合理性）	**（承认反方合理性&反驳反方）**
Para3. 立论段	**Para3. 立论段**
（论证本方合理性）	**（论证本方合理性）**
Para4. 结论段	**Para4. 结论段**

◆ **补充反驳思路训练**

Many countries require cigarette smokers to pay particularly high taxes on their purchases of cigarettes; similar taxes are being considered for unhealthy foods. It is argued that the policy of imposing high taxes on cigarettes and other unhealthy products has several social benefits. To what extent do you agree or disagree?

Benefits of imposing high taxes	**Harms of imposing high taxes**
k)	p)
l)	q)
m)	r)
n)	s)
o)	t)
…	…

Point1 : Smoking tax can discourage smoking
Refute: First, these taxes don't necessarily lead to healthier behavior. For instance, high cigarette taxes have led some smokers to buy cheaper, lower-quality cigarettes. Such cigarettes typically contain even more harmful substances than better-quality cigarettes and present even greater health risks. Similarly, imagine how some consumers might react to higher taxes on unhealthy foods. They might continue buying the unhealthy foods they prefer even if they're more expensive, and as a result have less money left to spend on healthy foods. That certainly wouldn't benefit their health.

Point 2: Tax revenue can promote economic growth
Refute: the fact that governments can use this tax revenue for various projects has a downside. This income represents millions and millions of dollars, and governments become dependent on it and don't want to lose it. In consequence, the governments might not be forceful enough pursuing policies and implementing laws that might eliminate unhealthy habits altogether. For example, they're unlikely to adopt radical measures such as not allowing smoking in outdoor public areas such as parks, or even banning smoking in all outdoor areas, public or private, because they don't want to lose this income.

Review Checklists:

Lesson 11 Reasoning & Drills PART I

11.1 驳论段落写作

➢ **老龄化 Sample**

A voice arises that rich experiences accumulated by the elderly can contribute to society.

This group of people claim that having worked earnestly and dedicatedly for several decades, senior people may obtain abundant experience and expertise, which can be passed down to younger generation in the industry. In this case, they could avoid similar mistakes commonly made by sophisticated employees, thereby improving their working efficiency.

However, reasonable as it seems at first glance, it still has to be pointed out that the experiences imparted from elderly people might not always be applicable, because they are sometimes out-of-date during the era of information explosion. (104 words)

11.2 驳论段模仿练习（Please Refer to Page 57）

Nowadays, many countries are designing and introducing driverless cars. Do you think the advantages of driverless cars outweigh its disadvantages?

- **Topic Sentence (Present)**

- **Reasoning (Extend)**

- **Refuting**

Checklists for Improvements:

✧

✧

✧

Sample 1

A voice arises that driverless cars will lead to more safety issues. This group of people claim that being programmed to drive automatically, the cars, whose system might break down, will be out of control under emergencies, as a result of which more car crashes causing severe casualties even deaths might emerge. However, reasonable as it seems at first glance, it still has to be pointed out that with technological advance, program bugs will be fixed and in fact, most car accidents are caused by human factors including driving in fatigue and after drinking alcohol, which can be avoided by driverless cars. (102 words)

Sample 2

A voice arises that the development of this kind of technology can make long distance commuting easier and more comfortable. This group of people claim that with automatic driving or cruising system, there is no necessity for drivers to keep their hands on the steering wheel, which makes it possible to travel longer distance without break in between. In this case, people won't feel as exhausted as when they must drive themselves. However, reasonable as it seems at first glance, it still has to be pointed out that in fact drivers still need to take over from time to time due to safety regulations and potential traffic risks. (108 words)

✧

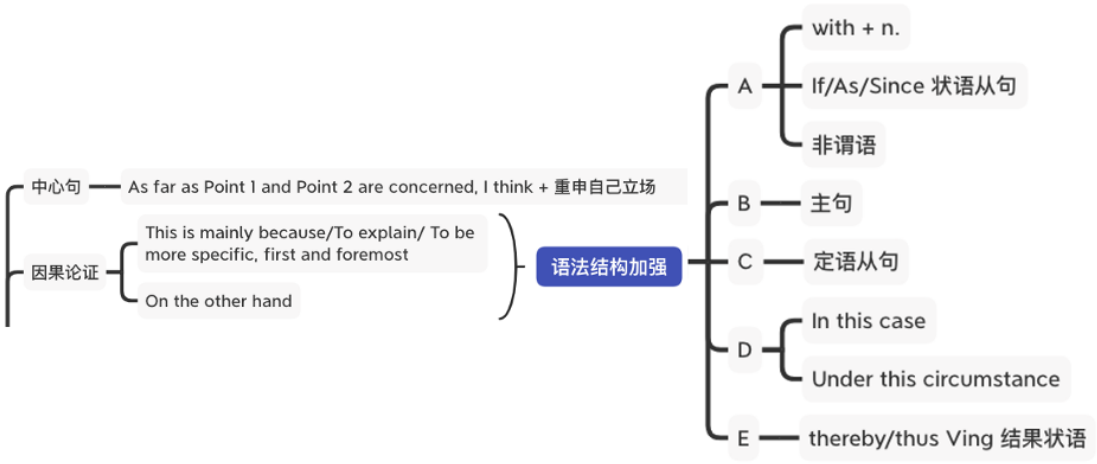

✧

✧

✧

■ Drilling for Reasoning

Many countries spend a lot of money in the arts. Some people think investment in the arts is necessary, but others say money is better spent on public services and facilities.

Discuss both views and give your own opinion.

Train of Thoughts	
Position	
BP 1	**Present:** **Extend:** **Refute:**
BP 2	**Present: a).** **b).** **Extend Point a:** **Extend Point b:**

Review Checklists:

- ✓ I have fully extended all the three points that I present
- ✓ I am sure that I write grammatically correct sentences
- ✓ I am sure that the end of every logical step is identical to the point that I present
- ✓ I am sure that I write at least 100 words in each body paragraph

Body Paragraph 1

Body Paragraph 2

Checklists for Improvements:

✧

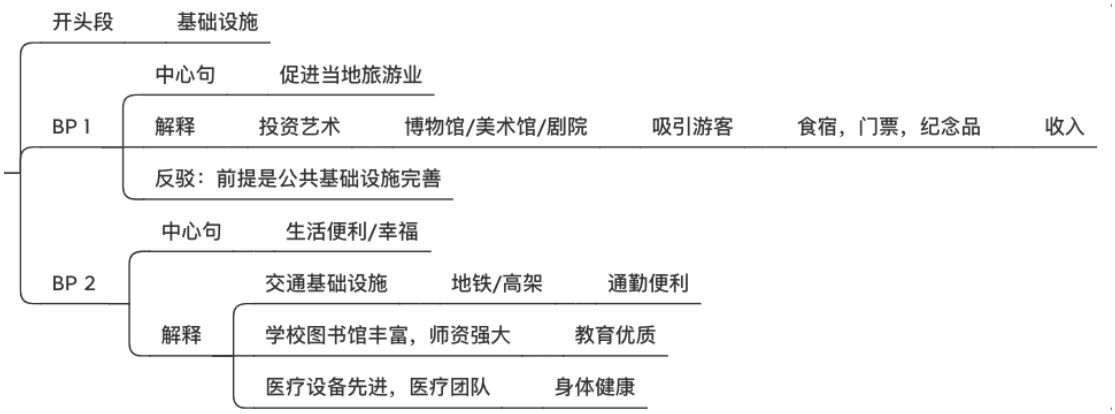

✧

✧

✧

■ Sample

➢ Train of thoughts

➢ Body paragraph 1

A voice arises that investment in arts can boost local economy. This group of people claim that with investments to build more art-related facilities, such as museums and art galleries, tourists might flood in, who will spend on food, accommodation, tickets, and souvenirs. In this case, not only abundant revenues but also new jobs will be created, thereby greatly promoting local economic growth. However, reasonable as it seems at first glance, it still has to be pointed out that the prerequisite for arts facilities to be profitable is a well-developed infrastructure and public service system, especially a convenient transportation network.

➢ Body paragraph 2

As far as more convenience and social well-being are concerned, I believe that public budget is better allocated to public services and facilities. To be more specific, first and foremost, with better and more developed public infrastructure, such as advanced transportation network, parks and public sport centers, people will have more choices to choose from, making their lives more convenient. On the other hand, when more public fund pours into medical and educational system, timely and efficient medical treatment will be much more affordable, and quality education more accessible for the general public, which will bring more happiness for people.

Lesson 13 Exemplification and Drills

13.1 How to use examples

- Statistics 科学研究数据
- Facts and examples 事实例证

People today consume more junk food than in the past and damage their physical health. Many people claim that education is an effective way to prevent people from consuming too much junk food.
What is your opinion?

- **观点：教育有一定作用.** According to a study published by the Economies in 2016, educational campaigns are particularly effective in converting the preference of the young: Teenager student in the UK who participated in health campaigns aiming at exposing the negative effects of junk food kept consuming much less junk food in the following years than their counterparts in the United States coming from a comparable social class.

- **观点：某些地方教育也起不到作用.** The prerequisite for education to be effective in curbing people's intake of junk food is that the subject population have to be able to make their choices. In developed economies such as the UK and US, most citizens have the liberty to decide what they take in for the day, with access to a variety of choices in food, while things are totally different in less developed economies. In the slum area of Manilla, the capital of the Philippines, people have no choice but to purchase highly-processed foods. The slums are tightly controlled by local gangs, who profit from bringing in and selling packs of highly-processed foods in the area. The situation is made worse by the high temperature, high humidity, and a lack in cooling equipment.

13.2 Drills

- 大量投资艺术可以促进旅游业的发展

- 不给小孩子设定过多规则有利于他们的创造性发展

- 经济全球化让顾客们拥有更多的选择

- 进口产品可以促进国内企业的创新和研发

Samples for Exemplification

1. For example, according to a study published in Economist in 2019, the tourism income in a southwest Spain city where six different themed museums were constructed rose by 23% year-on-year.
2. For example, according to a study published in Economist in 2019, pupils in the UK who grew up in an environment where not many rules are set and breaking rules are encouraged kept thinking out of the box in high schools than their counterparts in the United States coming from a comparable social class.
3. By way of example, consumers in China nowadays can purchase not only domestic mobile brands such as Huawei and Xiaomi, but also iPhone produced in USA and Samsung in South Korea
4. By way of example, because of the imported smart phone from Apple, enterprises such as Xiaomi and Huawei in China kept developing and researching the 5G technology and chips to keep their market shares.

   By way of example, Nokia lost its lion's share in the mobile market because the once mobile-phone giant in the world failed to make innovative adjustments when they are faced with smartphone import from Apple and Samsung.

Checklists for Improvements:

✧

✧

✧

✧

Review Checklists:

- ✓ I understand when and how to use examples
- ✓ I am sure that I write grammatically correct sentences
- ✓ I am sure that exemplification is optional and is the solution when reasoning is not convincing enough

13.3 Drills for Opening Paragraph & Reasoning & Exemplification

Lesson 14 Contrasts and Conclusion

14.1 How to use contrasts

Some people think that a longer prison term as a way of punishing those who break the law is better than other methods. ***To what extent do you agree or disagree?***

■ Train of Thoughts

■ Writing Drills for unfamiliar Vocabulary

➢ Opening Paragraph

- **Body Paragraph 1**

- **Body Paragraph 2**

Checklists for Improvements:

✧

✧

✧

✧

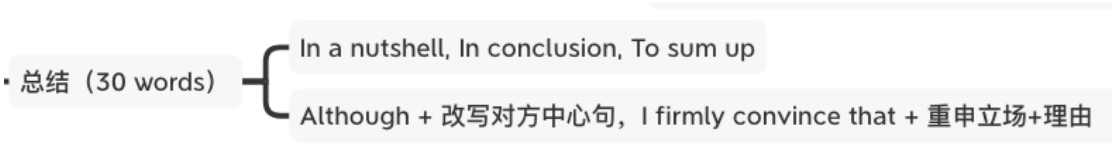

■ **Sample**

As crime rate gets increasingly high in many parts of the world, how to punish and transform criminals becomes the focus of public concern. It is argued that a longer prison term is more effective in punishing those who offend the law than other approaches, nevertheless, I disagree with this opinion.

A voice arises that a longer prison term can help reduce crime rate to some extent. This group of people claim that being sentenced to jail for a longer term equals more freedom lost; and law breakers might face more serious consequences after prison term, from future job prospects to adjustment to society, and from being shunned by neighbors to facing a collapsed marriage. Under this circumstance, potential criminals might give up committing crimes because of the heavy toll their wrongdoings will take on all aspects of their lives both in jail and after. However, reasonable as it seems at first glance, it still has to be pointed out that the core issue to successfully transform criminals lies not in fear instilling but in change from inside heart.

As far as law education and working skill training are concerned, I think these two methods can truly transform wrongdoers from inside heart. This is mainly because, first and foremost, with more law-related courses and exams, they might realize their mistakes, which helps to be law-abiding citizens. On the other hand, being trained in working skills, these criminals are more likely to be employed, thereby securing their lives. In this case, it is less possible for them to violate the law again. ***By contrast, if they were sentenced to jail for a longer term, they might be immersed with rage, which might lead back to wrongdoings again, threatening social stability.***

14.2 Conclusion

✧ **延长刑期结尾段**

- To sum up, although a longer prison term can deter crimes to some extent, I firmly convince that law education and job training are better in transforming law offenders. (29 words)

2. Some people believe that it is more important to teach children the literature and history of their own country, rather than the literature and history of other countries. To what extent do you agree or disagree?
3. Many people think air travel should be encouraged because it gives ordinary people freedom to travel further. However, other think this leads to environmental problem, so air travel should be more expensive in order to discourage people from gravelly by air. Discuss both views and give your own opinion.
4. Some people think that schools should select their pupils according to their academic ability. Others believe that young people with different abilities should be educated together. Discuss both sides and give your opinion.
5. Some people say that children should go to school as young as possible, while others believe that children should go to school of at least 7 years old. Discuss both views and give your own opinion.

➢ Advantages and Disadvantages

a) In many countries, women are allowed to take maternity leaves from their jobs during the first months after the birth of their baby. Do advantages outweigh disadvantages?

b) In many countries, people can eat a wide variety of food grown in other areas today. As a result, they eat more food from other regions than local food. Do you think the advantages of the development outweigh the disadvantages?

c) People today can shop, work and communicate with others via the Internet instead of face-to-face communications. Is it a positive or negative

development?

d) As countries develop, more and more people buy and use their cars. Do you think the advantages of this trend for individuals outweigh its disadvantages for environment?

e) People in many countries today have a wide range of household goods (e.g. televisions, microwave ovens and rice cookers) than ever before. Is it a positive or negative development?

- **Agree or Disagree**

1. Some people believe that spending money on developing technology for space exploration is unjustifiable, there are more beneficial ways to spend money. To what extent do you agree or disagree?
2. Some people think that schools should stop teaching children by using books, because children find them boring and that children can learn from films, TV, video games and computers instead. To what extent do you agree or disagree?
3. Nowadays, a large amount of advertising is aimed at children. Some people think this can have negative effects on children and should be banned. To what extent do you agree or disagree?
4. Some people think that traffic and housing problems in major cities could be solved by moving large companies and factories and their employees to the countryside. To what extent do you agree or disagree?
5. Some countries spend a lot of money preparing competitors to take part in major competitions such as Olympic Games or football World Cup. Some people say that it would be better to spend this money encouraging children to take up sports from a young age. To what extent do you agree or disagree?
6. In most countries, prison is the common solution for the problem of crime. However, the more effective solution is to provide people with better education so that people will not become criminals. To what extent do you agree or disagree?

Lesson 15 Cause and Solution

It's widely acknowledged that wild animals serve as a greatly important part in biodiversity. Nevertheless, in recent years, a noteworthy phenomenon existing in the ecological balance is that a considerable number of wild animals are being extinct. This essay will attempt to look into some possible causes behind such situation and feasible solutions to protect these wild animals. (57 words)

Drill:

Many museums and historical sites are mainly visited by tourists rather than local people. ***Why is this?*** ***What can be done to encourage local people to visit museums and historical sites?***

➢ **Opening Paragraph**

➢ **Body Paragraph 1 参考框架**

As far as I am concerned, this phenomenon is the result from REASON 1 and REASON 2. First and foremost, …. On the other hand, ….

Sample

As far as I am concerned, this phenomenon is the result from human behavior and climate change. First and foremost, many human activities do harm to habitats where wild animals live. For example, deforestation and industrial water pollution destroyed wild habitats; meanwhile illegal hunting driven by huge amount of profit reduces the variety of wild species. On the other hand, irreversible warmer climate, deteriorated by car exhaust emission, worsens the greenhouse effects. In this case, iceberg melts and sea level rises, thus pushing certain species like penguins and polar bears into the edge of dying out. (96 words)

Drill: *museums and historical sites mainly visited by tourists rather than local people.*

Apart from that, ...

Sample

In my opinion, a variety of strategies can be taken to tackle this problem. For instance, it is strongly recommended for government to build more natural reservations. To be more specific, if endangered wild animals can be separated and protected in specific areas, where suitable temperature, humidity and sufficient food are provided, they are more likely to survive the climate change. Apart from that, tougher laws and regulations should be enforced to punish the human behaviors doing harm to wild species. For example, those who are caught deforesting and illegal hunting should be fined or sentenced to jail in accordance with their wrongdoings. (103 words)

Drill: *museums and historical sites mainly visited by tourists rather than local people.*

It's widely acknowledged that historical spots and reputable museums serve as a greatly important part in tourism. Nevertheless, in recent years, a noteworthy phenomenon existing in local culture is that these places are frequently visited by incoming tourists instead of local residents. This essay will attempt to look into some possible causes behind such situation and feasible solutions to balance the tourist proportions.

As far as I am concerned, this phenomenon is the result from local people's familiarity and tourists' curiosity. First and foremost, having lived there for several years, it is possible that most local residents have well visited and explored the places of interests and museums there since their childhood, which leads to their reluctance of further visits. On the other hand, with better media exposures on the internet, many historical attractions and museums are regarded as must-visit destinations that appeals to potential visitors outside the city. In this case, an increasing number of tourists follow the prevalence to visit landmarks, taking photos and posting on their social medias.

In my opinion, a variety of strategies can be taken to tackle this problem. For instance, it is strongly recommended for museums and historical sites to hold different types of themed activities to arise local citizens' interests. To be more specific, encyclopedia contest, history lectures, temple fairs, evening galas and families open days can be held to provide them with refreshing feelings and a shift of intrinsic perception. Apart from that, if there are special and seasonal exhibitions with newly introduced or borrowed exhibits from other cities, an increasing number of locals might pay more frequent visits to museum than before.

In conclusion, locals' familiarity and tourists' enthusiasm lead to museums and historical sites being paid visits merely by travelers. Personally, I convince that this can be addressed by holding various activities and introducing exhibits to add charms to the tourist attractions. (313 words)

BP 1	**Present: a.** **b.** **Extend Point a:** **Extend Point b:**
BP 2	**Present: a.** **b.** **Extend Point a:** **Extend Point b:**

Sample:

As economy gets increasingly advanced in cities, a noteworthy phenomenon existing around the world in recent decades is that a considerable number of people migrate from countryside to metropolitan cities. In this essay I will attempt to look into some possible causes behind such situation and analyze the benefits and drawbacks of this trend. (54 words)

As far as I am concerned, this phenomenon is the result from seeking for higher income and better living standard. First and foremost, compared with rural areas, the economy in urban areas is more developed, thereby providing more labor-intensive job opportunities. In this case, the immigrants are more likely to be employed, which might bring them higher salaries. On the other hand, public services and infrastructures in cities are more completed. For instance, advanced transportation system *facilitates* their commuting, schools with professional teachers *ensures* their children's access to quality education, and hospitals equipped with state-of-the-art devices *secures* physical fitness of their family. (102 words)

However, in my opinion, this phenomenon poses a threat to society, widening the gap between rural and urban areas. This is mainly because, with the pouring inflow of rural labor force, more public facilities will spring up in cities, which leads to an increasingly prosperous urban economy. By contrast, the already sluggish rural economy is made worse because of the severe brain drain. *For example, according to a study published in Economist in 2018, the GDP gap between countryside and cities in a southwest province of China where a large number of rural residents move to cities to live rose by 35% year-on-year.* (103 words)

In conclusion, that better-paid jobs and quality living conditions result in the rural-to-urban shift. Nevertheless, I convince that it has adverse impact on society because wealth disparity between cities and countryside will be worsened. (34 words)

16.2 Drill

In some countries around the world men and women are having children late in life. ***What are the reasons for this development?*** ***What are the effects on society and family life?***
